developer traineeship

NETCONOMY is one of the leading e-commerce and e-business providers in the German Speaking area (Germany, Austria, Switzerland). We specialize in the successful implementation of omni-channel strategies and accompany our well-known clients in their digital transformation. Currently we employ 300 SAP Hybris experts at our locations in Graz, Vienna, Klagenfurt, Zurich, Dortmund and Berlin.

Traineeship: Junior Software Developer (m/f) **24 hours/ week**

Know what you are capable of? Your profile backs it up.

- > You are interested in new developments in Web, Frontend and Backend technologies
- > You are excited about agile teams and you have already heard about SCRUM
- > You are using Software Developer platforms like Stack Overflow
- > You enjoy working on source code in your free time
- > You know what GIT(hub) is
- > You can differ between a programming language, an island and a coffee

Goal-oriented and solution-driven – your possibilities are top-notch.

Can you identify with most of the points above? Then we will give you the chance to prove your skills to us and show your passion for these topics within our software developer trainee program between Monday, 3rd of September 2018 and the 30th of November 2018.

During the traineeship you will get to know the essentials for the implementation of software development projects in the field of E-Commerce. When it comes to learning technologies and methods from our daily business, you will be proactively supported by our experienced inhouse trainers and our Netcademy. Highly skilled software developers will accompany your learning process. A bunch of interesting topics will come up to you during training sessions in the office (2 days per week) and home office (1 day per week). Some examples are: Web application development with Java & Spring, software architecture, SCRUM, testing and much more.

For this traineeship you will get a remuneration of EUR 750.00/ month. After the successful completion of the traineeship you have the possibility to get a permanent contract as a Junior Software Developer (part-time or full-time). Are you still looking for an interesting topic for your Bachelor or Master degree? We are happy to support you!

Apply online including your photo or learn more at www.netconomy.net/karriere about other current jobs offers. We look forward to hearing from you!
