# Training Specialist – Software Development (f/m/d)

At our company site in Friesach

The **SSI Schaefer Group** is the world's leading solutions provider of modular warehouse and logistics systems, employing a workforce of over 10,000 people at its international subsidiaries and production sites.

SSI Schaefer specializes in high-performance software for intralogistics and is the ideal partner for analyzing, visualizing, and optimizing intralogistics processes.

Over 1,100 software experts develop customer-oriented, individually tailored intralogistics solutions.

## YOUR RESPONSIBILITIES

- You deliver engaging training sessions for our software development teams across all WAMAS® software products.
- You create modern training content in all shapes and sizes – from quick guides and slides to e-learning, video tutorials, podcasts, or all ideas you may come up with.
- You will guide the entire training journey – from sharing knowledge to handing our certificates.
- You keep pushing learning forward – creating smart training concepts that turn WAMAS® know-how into real expertise.
- You customize training programs to meet the specific needs of different target groups within the organization.

## YOUR BENEFITS

In addition to a wide variety of engaging tasks, we also offer our employees the following benefits:

|                                                                                                          |                                                                                                                             |
|----------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
|  Family-owned company  |  Comprehensive health care package       |
|  Job security          |  Lunch allowance                         |
|  Healthy growth        |  Flexible working hours                  |
|  Home office option    |  Funded professional development program |
|  Staff discounts       |  Buddy system                            |
|  Numerous staff events |  Free parking & BikeLeasing              |

*The minimum salary for this position according to the Collective Agreement is € 3843 gross per month. However, we offer a competitive salary for this position depending on your qualifications and relevant professional experience.*

## YOUR QUALIFICATIONS

- Degree in Computer Science, Education, Instructional Design, or a related field.
- Solid software development experience (Java or Angular/TypeScript) is required, including hands-on programming and working with, or mentoring technical teams.
- Strong skills in designing and delivering technical training are a plus – ideally in a corporate or IT environment.
- Familiar in creating digital learning content
- Excellent skills in English and German.
- A proactive mindset, creativity, and a passion for continuous learning and knowledge sharing.
- Commitment to ongoing professional development, including programs like Train-the-Trainer or relevant certifications.
- You're curious and excited to reach goals together – with a supportive team of experts, lots of passion, and a good dose of fun along the way.
